# Party Henna

*Party Bookings are made on hourly basis:*

Lead artist - \$75 per hour

\*Minimum booking of two hours is required (for each artist)

*How much can be covered in one hour?*

10-18 one side simple designs can be covered in an hour. The variation in number is based on guest transition time (referring to the wait time for the next guest to settle down to get henna done) & the time guests take to decide which design to get. We provide party design books to select designs from there or free style. We try our best to recreate any design requested by your guest within our capacity.

# How to get the Dark Henna Stain

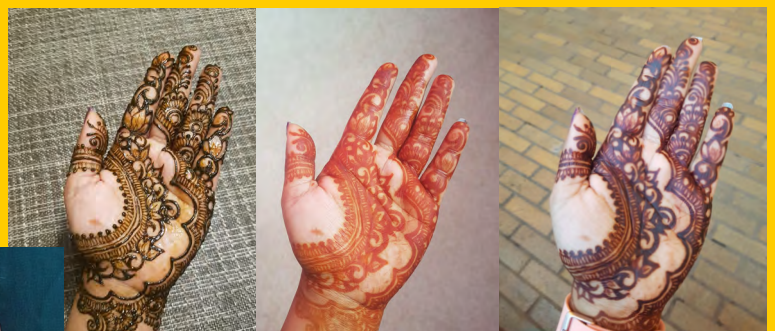

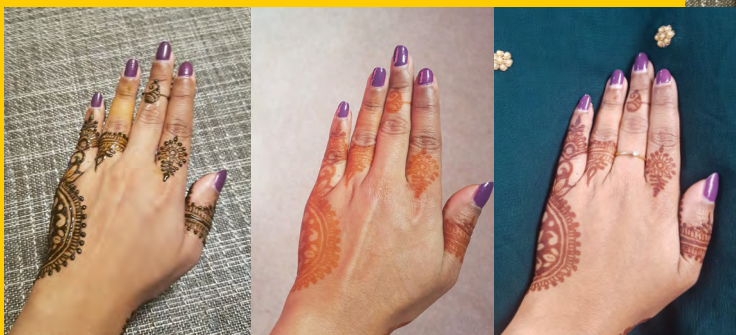

## *Before Application of Henna:*

- The area of henna application should be washed off nicely (there should not be any moisturizer or lotion on the skin)
- It is preferred that manicures and pedicures are done before the application of henna
- It usually takes 24- 48 hours after paste removal for the henna to stain.

## *After Applying Henna Paste (After Care):*

- Let the henna stay on skin for 6-8 hours. The longer it stays on the skin the darker stain it gets. If possible leave the henna overnight on skin.
  - Moisture the design with lemon juice and sugar syrup. Mix lemon juice with sugar and Tap the juice on the design with cotton.
  - Henna & Heat are friends. To get a darker stain you can steam the area of henna gently.
  - To keep the henna on skin, it can be covered with toilet paper, medical tape etc .
  - Remove the paste using olive oil and a butter knife or spoon.
- DO NOT WASH THE HENNA WITH WATER.
- Try to avoid direct contact with water for 24 hours. The stain will be light orange right after the removal of paste, and then gradually within 48 hours the color will develop to dark brown ( depending on body chemistry and the duration of paste on skin ).
  - Enjoy your HENNA ^\_^
